

TOP 5 WAYS TO PRACTICE MULTIPLICATION FACTS

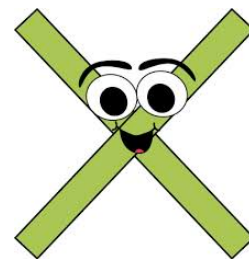

- ❖ Skip counting: Make up a song or rap.
- ❖ Dice: Roll 2 dice and multiply. Make it a game!
- ❖ Flash Cards: Practice in silly voices or with a timer.
- ❖ Multiplication War: Flip two cards and multiply. The person with the highest product keeps the cards! (Use flash cards or a deck of cards.)
- ❖ Websites/Apps: Teach Me Math Facts, IXL Multiplication Skill Builders

No matter how you practice with your child, make it FUN! And as a side note: incentives go a long way! Create rewards for your child such as deciding the dinner menu, a night off of chores, or choosing a board game to play.
